#### No.17 - Measurement of Service

A Where the charges for service are specified based upon distance, the following rules apply:

Distance between two points is measured as airline distance between the wire centers of the originating and terminating telephone lines. The wire center is a set of geographic coordinates, as referenced in NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4, associated with each NPA-NXX combination (where NPA is the area code and NXX is the first three digits of a seven-digit telephone number). Except that, until the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4 is revised to include certain Company wire centers, the airline distance will be determined utilizing the applicable "V" (vertical) and "H" (horizontal) coordinates on an individual case basis.

The airline distance between any two wire centers is determined as follows:

- 1) Obtain the "V" and "H" coordinates for each wire center from the above-referenced NECA tariff.
- 2) Compute the difference between the "V" coordinates of the two wire centers; and the difference between the two "H" coordinates.
- 3) Square each difference obtained in step (2) above.
- 4) Add the square of the "V" difference and the square of the "H" difference obtained in step (3).
- 5) Divide the sum of the squares by 10. Round to the next higher whole number if any fraction is obtained.
- 6) Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.
- 7) Formula:

square root of  $(1/10 \text{ times } (V1 - V2)^2 + (H1 - H2)^2 )$

#### No. 24 - Privacy

- A. The release by the Company of non-public Customer information is restricted by the decisions and regulations promulgated by the CPUC as well as the California Public Utilities Code, specifically Decision 92860, as modified, and Public Utilities Code Sections 2891, 2891.1, and 2893. For each new customer, and on an annual basis for continuing customers, Company shall provide in writing a description of how the carrier handles the customer's private information and a disclosure of any ways that such information might be used or transferred that would not be obvious to the customer. Sage is subject to the credit information and calling record privacy rules set forth in Appendix B of Decision nos. 92860 and 93361, except as modified by Decision Nos. 8306-066, 83-06-073, and 83-09-061.

Notwithstanding the above, there are instances where the Company may be required to release certain non-public Customer information without first notifying the Customer and obtaining written consent. Consistent with the California Public Utilities Code, the Company will provide required Customer information to an emergency agency responding to a 911 call, or other call communicating an imminent threat to life or property, to a law enforcement agency in response to lawful process, to a collection agency for the purpose of collecting unpaid debts, to the CPUC pursuant to its jurisdiction, to other telephone companies, including local and long distance carriers, as necessary to provide telephone service within or between service areas, to the Federal Communications Commission or the CPUC in response to orders regarding the provision of services over the Company's facilities by parties other than the Company. In addition, except for Customers subscribing to non-published number, the Company will release information that is customarily provided in a subscriber directory or through directory assistance services. Finally, the Company may provide the names and addresses of Customers subscribing to Lifeline service to other certified California utilities for use in outreach programs directed towards low-income subscribers.

Appendix B of CPUC Decision 93361, as modified by subsequent decisions, sets forth the privacy rules for credit information and calling records. This Appendix is reprinted below in its entirety.

**No. 24 – Privacy (Cont'd)**

2. *Calling Records*

*Calling records are the records of calls made from a subscriber's telephone no matter how recorded and regardless of whether such information appears in the subscriber's monthly telephone service bill. Toll records and pen registers are examples of calling records.*

C. *Notification to the Subscriber*

1. *Except as provided below, the subscriber whose credit information or calling records are requested by judicial subpoena or search warrant shall be notified by the utility by telephone the same day that the subpoena or search warrant is received (only one attempt by telephone is necessary.) Telephone notification, whether successful or not, shall be allowed by written notification within twenty-four hours after the receipt of the subpoena or warrant.*
2. *Both oral and written notification shall state that a judicial subpoena or search warrant was received for credit information or calling records for the specified dates and telephone numbers, and provide the name of the agency making the request.*

D. *Deferral of Notification*

1. *Notification to the subscriber will be deferred, and no disclosure made for a period of 90 days if there is a certification for nondisclosure in the body of a subpoena or search warrant. The certification for nondisclosure must contain a statement that there is probable cause to believe notification to the subscriber would impede the investigation of an offense pursuant to which the subpoena or warrant was issued. Upon making return to the court to a subpoena, the telephone utility shall request instruction from the court whether it should notify the subscriber of its receipt of the subpoena before divulging the information or records requested.*
2. *The 90-day period can be extended for successive 90-day periods upon a new written certification in each instance that there is probable cause to believe notification to the subscriber would impeded the investigation of an offense pursuant to which the subpoena or warrant was issued.*
3. *Successive new written certifications shall be made by the individual who procured the issuance of the subpoena or warrant or, if that person is unavailable, be another member of the authorized agency who also certifies that he or she has been assigned to handle the matter for which the credit information or calling records has been obtained.*
4. *Within five working days of the expiration of any outstanding certification, or any renewal of such certification, the deferred notification shall be given in writing to the subscriber in accordance with (C) above.*

E. *Exception to Procedure for Release or Credit and Calling Records*

F. *Retention of Records*

1. *Records of request for credit information and calling records, other than from a utility's employees, shall be retained for a period of at least one year from the date on which the subscriber is notified in writing of the request. A copy of the letter of notification which was sent to the subscriber shall also be retained for a like period of one year.*

#### No. 25 - Legal Requirements for Refusal or Discontinuance of Service

California Public Utilities Commission's Decision No. 91188 in Case No. 4930 requires that each communications utility operating under the jurisdiction of the CPUC include the provisions of the rule set forth in Appendix B of that Decision as a part of the rules in the utility's tariff schedules. accordingly, Appendix B of Decision No. 91188, Case No. 4930, is quoted herein:

*"Appendix B"*

1. *"Any communications utility operating under the jurisdiction of this Commission shall refuse service to a new applicant and shall disconnect existing service to a Customer upon receipt from any authorized official of a law enforcement agency of a writing, signed by a magistrate, as defined by Penal Code sections 807 and 808, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law. Included in the magistrate's writing shall be a finding that there is probable cause to believe not only that the subject telephone facilities have been or are to be used in the commission or immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result.*
2. *Any person aggrieved by an action taken or threatened to be taken pursuant to this rule shall have the right to file a complaint with the Commission and may include therein a request of interim relief. The Commission shall schedule a public hearing on the complaint to be held within 20 calendar days of the filing of the complaint. The remedy provided by this rule shall be exclusive. No other action at law or in equity shall accrue against any communications utility because of, or as a result of, any matter or thing done or threatened to be done pursuant to the provisions of this rule.*
3. *If communications facilities have been physically disconnected by law enforcement officials at the premises where located, without central office disconnection, and if there is not presented to the utility the written finding of a magistrate, as specified in paragraph 1 of this rule, then upon written request of the subscriber, the utility shall promptly restore such service.*
4. *Any concerned law enforcement agency shall have the right to Commission notice of any hearing held by the Commission pursuant to paragraph 2 of this rule, and shall have the right to participate therein, including the right to present evidence and argument and to present and cross-examine witnesses. Such law enforcement agency shall be entitled to receive copies of all notices and orders issued in such proceeding and shall have both (1) the burden of proving that the use made or to be made of the service is prohibited by law, or that the service is being or is to be used as an instrumentality, directly or indirectly, to violate or to assist in the violation of the law and that the character of such acts is such that, absent immediate and summary action in the premises, significant dangers to public health, safety, or welfare will result, and (2) the burden of persuading the Commission that the service should be refused or should not be restored.*
5. *The utility, immediately upon refusal or disconnection of service in accordance with paragraph 1 of this rule, shall notify the applicant or subscriber in writing that such refusal or disconnection has been made pursuant to a request by a law enforcement agency, naming the agency, and shall include with said notice a copy of this rule together with a statement that the applicant or subscriber may request information and assistance from the Commission at its San Francisco or Los Angeles office concerning any provision of this rule.*

6. *At the expiration of 15 days after refusal or disconnection of service pursuant to paragraph 1 of this rule, the utility, upon written request of the applicant or subscriber, shall provide or restore such service unless the law enforcement agency concerned shall have notified the utility in writing of its objection to such provision or restoration of service, in which even service may be provided or restored only in a complaint proceeding pursuant to paragraph 2 of this rule. At the time of giving any such notice of objection, the law enforcement agency shall mail or deliver a copy thereof to the applicant or subscriber. Nothing in this paragraph shall be construed to preclude the granting of interim relief in a proceeding initiated pursuant to paragraph 2 of this rule.*
7. *Each contract for communications service, by operation of law, shall be deemed to contain the provisions of this rule. Such provisions shall be deemed to be a part of any application for communications service. Applicants for service shall be deemed to have consented to the provisions of this rule as a consideration for the furnishing of such service.*

9. *The term "communications utility," as used herein, includes a "telephone corporation" and a "telegraph corporation," as defined in Division 1 of the California Public Utilities Code."*

**INTRASTATE INTEREXCHANGE SERVICES**

**1.0 INTRASTATE INTEREXCHANGE TELECOMMUNICATIONS SERVICES**

1.1 General

The Company provides intrastate interexchange services, including direct-dialed message telecommunications services and 800/888/877/866 service to residential and business customers who also subscribe to the Company's Local Exchange Services, as described in Section No. 1 of this tariff. Intrastate interexchange services are only provided in conjunction with the Company's local exchange services, and no alternative arrangements will be made to provide these services to a customer that is not subscribed to the Company's local exchange service. Each service is offered via Sage's facilities, conventional network elements purchased from other local or inter-exchange carriers, or via resale of facilities of other local or inter-exchange carriers for the transmission of one-way or two-way communications, unless otherwise noted. Calls are rated based on the duration of the call. Services are available twenty-four (24) hours a day, seven (7) days a week.

Residential service offerings that include unlimited usage are limited to use for residential voice applications. This includes service offerings providing for unlimited local usage, unlimited intraLATA usage and/or unlimited interLATA usage. No commercial use of any form is permitted for such unlimited service offerings. Incidental calling for dial-up internet access, for data and fax type applications and for other similar restricted uses reflected in this tariff is permitted up to a maximum of 1200 minutes within any thirty-day period; any such usage beyond this threshold shall be presumed to be non-residential in nature. If, at any time, the Company determines that the Customer's usage is non-residential or is not consistent with use for residential voice applications, the Company may immediately take actions to enforce adherence to this tariff and to the Company's Statement of Terms and Conditions of Service that are applicable to interLATA and international long distance. Such actions may include the transition to a higher tier within the customer's existing service plan.

The Company will notify the Customer in writing when the previous month's usage exceeds that normally associated with residential voice applications. Such written notice will inform the Customer that a higher tier rate will apply if, after two additional months, the usage remains above usage thresholds established in the existing service plan. Customers whose excessive usage levels resulted in a higher rate will, upon request, qualify for the lower-tier rate(s) after three consecutive months of usage below usage thresholds established in the existing service plan.

1.2 Charges Based on Duration of Use

(L)

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 1.2.1 Calls are measured in duration increments identified for each service. All calls which are fractions of a measurement increment are rounded up to the next whole unit
- 1.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 1.2.3 Timing terminates on all calls when the calling party hangs up or the Company's network receives an on-hook signal from the terminating carrier.
- 1.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 1.2.5 All times refer to local times.
- 1.2.6 Rates are not distance sensitive. As such, unless otherwise indicated, mileage bands are not applicable to the services offered.
- 1.2.7 Unless otherwise indicated, rates do not vary depending upon day or the time of day (Day, Evening, and Night/Weekend).
- 1.2.8 Each call is rated and billed in whole cents. Any rated call with a fraction of a cent less than \$0.004 will be rounded down to the nearest whole cent. Any rated call with a fraction of a cent \$0.005 or greater will be rounded up to the nearest whole cent.
