

# Calling Features<sup>†</sup>

## How to Use Our Most Popular Calling Features

---

### Caller ID<sup>††</sup>

*Tells you who's calling before you pick up the phone and keeps a log of your past calls.*

Caller ID works automatically with a Caller ID equipped phone or display unit. By the second ring of a call, your caller's information will appear on the screen of the phone or display unit.

### Call Waiting

*Alerts you that another caller is trying to reach you while you're on the phone.*

**TO DISABLE: \*70**

Call Waiting works automatically. To temporarily disable Call Waiting during your next phone call, dial \*70 prior to dialing the phone number.

### Call Waiting ID/Wait & See<sup>††</sup>

*Tells you who's calling when you have a call waiting.*

Call Waiting ID/Wait & See works automatically with a Caller ID equipped phone or display unit. When you're on the phone and receive another call, the name and/or number of the new caller will be displayed on your phone.

### Call Forwarding<sup>†††</sup>

*Allows you to transfer incoming calls to another telephone number.*

**TO ENABLE: 72# • TO DISABLE: 73#**

Press 72# and then enter the number to which you want calls forwarded. Press 73# to turn off Call Forwarding.

### Three-Way Calling

*Allows you to add a third party to an existing call.*

When you're on a call, press and release the receiver button or press the Flash button to get a second dial tone, then dial the second number. Press and release the button again to connect the two calls together.

<sup>†</sup> Services are not available in some areas.

<sup>††</sup> Special equipment is required to utilize these features.

<sup>†††</sup> Forwarded calls may incur additional usage cost.

<sup>††††</sup> Blocks local telephone numbers only.

## **Call Blocker/Call Screen** <sup>+++</sup>

*Blocks calls from pre-selected local telephone numbers and/or blocks the last incoming call.*

**TO ENABLE: \*60 • TO DISABLE: \*80**

To block a phone number, press \*60 and follow the instructions. To block your last incoming call, press #, listen for three tones, and then press 01#. To turn Call Blocker off, press \*80. Build a screening list of up to ten (10) telephone numbers to block. Blocked callers receive a recorded announcement.

## **Call Return/Automatic Call-Back**

*Automatically redials the last incoming telephone number.*

**TO ENABLE: \*69 • TO DISABLE: \*89**

Press \*69 to dial the telephone number from the last incoming call. If the number is busy, it will keep trying to call the number for a maximum of 30 minutes. You will be signaled with a distinctive ring when the call can be completed.

## **Repeat Dialing/Auto Redial**

*Automatically redials the last outgoing telephone number dialed.*

**TO ENABLE: \*66 • TO DISABLE: \*86**

Press \*66 to dial the telephone number from the last outgoing call. If the number is busy, it will keep trying to call the number for a maximum of 30 minutes. You will be signaled with a distinctive ring when the call can be completed.

## **Speed Calling**

*Places calls by dialing only a one-digit or two-digit code.*

**TO ENABLE: 74#**

To assign a speed code, press 74# and wait for a dial tone. Then enter the speed code number you would like to assign, followed by the phone number to be assigned. To automatically dial that number, press the speed code you have assigned to the number, followed by the # key.

## **Anonymous Call Rejection**

*Automatically rejects calls that have been marked anonymous by the calling party.*

**TO ENABLE: \*77 • TO DISABLE: \*87**

Anonymous Call Rejection works automatically. Press \*87 if you choose to disable this service. Press \*77 to re-enable it. Your phone will not ring for calls that are rejected. The caller will receive a denial announcement, and then the call will be disconnected.
